

EVAPO-RUST

IS NOW AVAILABLE IN WIPES!!

Join the newest rage in cleaning...

JNJ Industries is the exclusive manufacturer and your single source provider of EVAPO-RUST in saturated wipes. In 2000, EVAPO-RUST was recognized as being one of the top 100 products introduced to the world market.

EVAPO-RUST Wipes work in three unique ways:

1. Rust Cleaner

Removes flash and light surface rust for all surfaces.

2. Rust Inhibitor

Prevents rust from forming up to 2-6 weeks (depending on temperature and humidity).

3. Spot Rust Cleaner

Where dipping is impossible, these wipes may be used in large areas by wrapping the rusted area with the wipes and keeping the surface moistened.
